

<b>Billing and Reimbursement Guideline: Annual GYN Exams CHC Billing Guidelines</b>
---

<b>Guideline Publication Date:</b>	<b>September 1, 2013</b>
------------------------------------	--------------------------

Key coding, documentation and reimbursement points include:

- This policy applies to Neighborhood's network of Community Health Centers (CHC).
- This policy applies to CPT® codes S0610 (Annual gynecological exam, new patient) and S0612 (Annual gynecological exam, established patient).
- Fee for service payment will be allowed when annual gynecological services are billed with codes S0610 and S0612.
- This code should **not** be billed in conjunction with capitated preventative care service codes (99383-99387, 99393 to 99397). Billing a combination of these codes may result in claim denials for exceeding benefits limits.
- This policy applies to professional services billed on a CMS-1500 form.

*Please refer to Neighborhood's provider website at <http://www.nhpri.org> for specific provisions by product line.*

*This guideline is not a guarantee of reimbursement. Plan coverage, eligibility and claim payment edit rules may apply.*
