

Update to Maternal Meal Delivery Program

January 1, 2025

Neighborhood Health Plan of Rhode Island (Neighborhood) is committed to improving health equity and supporting members throughout their health journey. Effective **January 1, 2025**, the provider for the maternal meal delivery benefit for **Medicaid** and **Commercial** members will transition from Mom's Meals to [Meals on Wheels of Rhode Island \(MOWRI\)](#).

MOWRI has been serving Rhode Island residents since 1969 by providing increased access to nutrition, safety checks, and social connection. With this change, Neighborhood continues its efforts to deliver valuable, member-focused benefits that address health and well-being.

Program Details

Eligibility: The maternal meal delivery program is available to new mothers on Medicaid and Commercial plans who have recently experienced a hospital birth.

Benefit: Eligible members receive 28 home-delivered meals at no cost, delivered directly to their door.

This change in provider does not affect the benefit itself, and Commercial and Medicaid members will continue to have access to the same meal delivery benefit.

Thank you for your continued support in helping our members achieve healthier outcomes throughout their pregnancy journey and beyond.

If you have questions about this change or would like more details, please contact our Provider Services team at 1-800-963-1001.

Note: *This notice was sent via email on January 1, 2025 to all providers registered for Neighborhood's News and Updates. If you would like to be added to the distribution list, please [click here](#) to sign up.*
